- No emails or passwords required

## Existing Users

Use Menu to access Import-Export on both the existing computer/phone and the new one. You may access the same account from multiple devices.

# Projections Game Overview

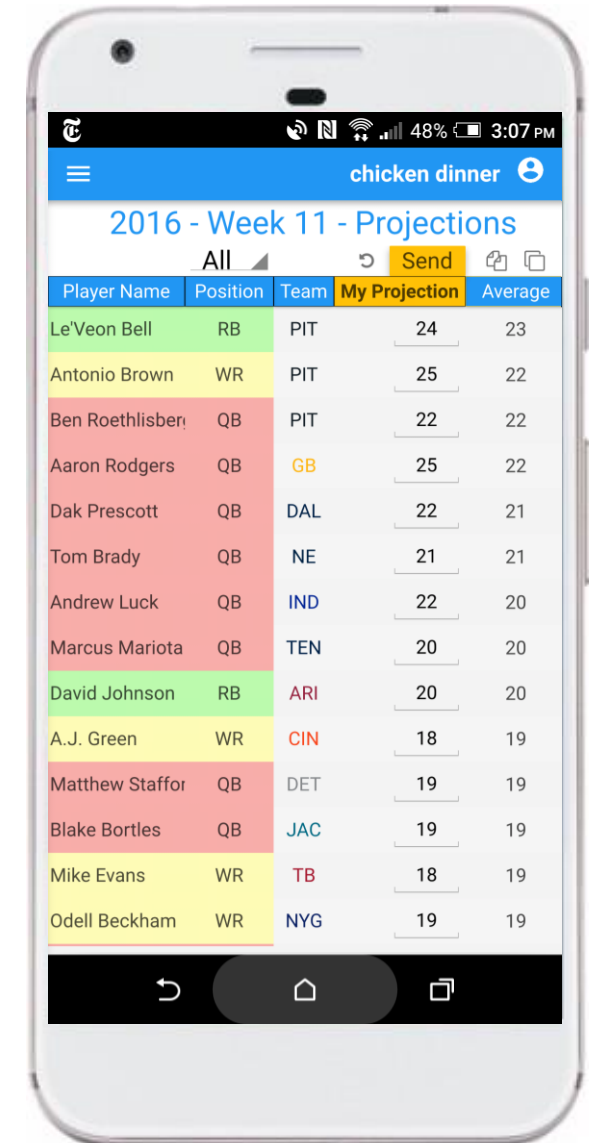

Projections Game – week 1 through 16 each NFL season

Each week Protoblock players compete by making direct projections for any/all NFL players prior to kickoffs. It's free to play. There's no drafting and each week is a new game.

As each NFL game is scored, 100 fBs are generated by each PPR fantasy point ( $\text{PPR} \times 100 = \text{fB}$ ) and automatically distributed to Protoblock Players based on accuracy.

It's easy to earn fBs, but only real NFL fantasy expertise can rise up the Leaderboard with consistent skilled projections.

Protoblock is a fair and open game platform that is decentralized in a way that makes every Protoblock player an owner through the fB blockchain coin distribution system.
